

i-PIX

**100% Label
Inspection
System**

"ADVANCED LABEL INSPECTION TECHNOLOGY"

100% LABEL INSPECTOR

The i-PIX Label Inspector is a true 100% Label Inspection System

The revolutionary i-PIX Inspection System meets the new FDA 100% inspection requirements for today and tomorrow. The i-PIX mounts directly to existing labelers, and will verify all text and graphics on every label on every roll. The i-PIX System inspects label text, bar codes, DIN numbers and product numbers prior to label application.

OPERATION

The i-PIX is easy to use. Set-up is performed using "Show-and-Go" technology.

The Operator saves a master "Golden" label and then sets the i-PIX to "RUN" mode to start inspection.

100% LABEL INSPECTION

INSPECTS ALL

- Text
- Graphics
- Dosages
- Codes
- Tables
- Ingredient Lists

INSPECTS EVERY LABEL
ON EVERY ROLL

REJECTS

Errors in text or graphics will cause a buzzer and a light alarm. Defective products can also be rejected automatically from the production line.
