

INSERT COUNTER

"AN INSURANCE POLICY AGAINST RECALLS"

100% ACCURATE COUNTING SYSTEM

INSERT COUNTER

The Insert Counter is a vision based counting workstation designed specifically for non-contact counting of folded stacked products such as inserts, outserts and folding cartons. Trays are counted and validated in 1/30th of a second saving enormous labour costs and improving product reconciliation.

**COUNTS IN
1/30 SECOND**

OPERATION:

The Insert Counter requires no setup. Inserts are counted by placing the tray under the video camera. Total count is displayed on the monitor by the push of a single button. The system displays the row counts and the accumulated total. The Insert Counter is capable of counting single or multiple row insert trays.

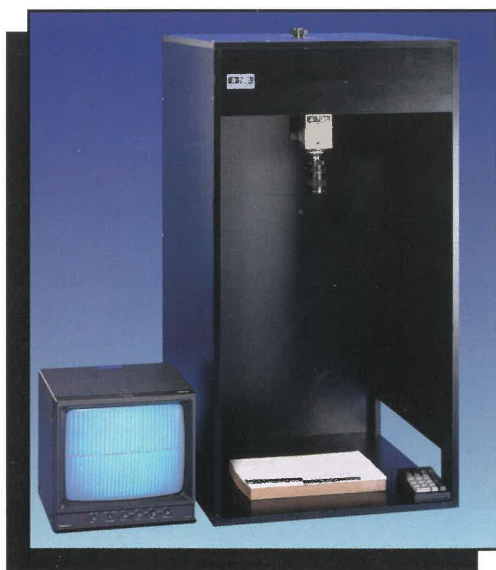

FEATURES:

- Multi-Row Counts
- Bar Code Verification
- Shrink Wrapped
- Loose Bundles
- Long or Short Trays
- Tray-Search™ Software

FDA REQUIRED:

The Insert Counter has become a mandatory system for accurate and repeatable counting of inserts and outserts according to the new Food and Drug Administration (FDA) guidelines for 100% automated inspection and reconciliation of cut labels.

**FDA
RECONCILIATION**

VALIDATED

HIGHLIGHTS:

- Fast, Reliable & Accurate
- Counts in 1/30th of a second
- Easy to use
- Counts inserts in the tray
- Validated Counts
- Counts Inserts, Outserts & Cartons
- Displays accumulated count, subtotals & totals
