

PRODUCT UPDATE

"An Insurance Policy Against Errors"

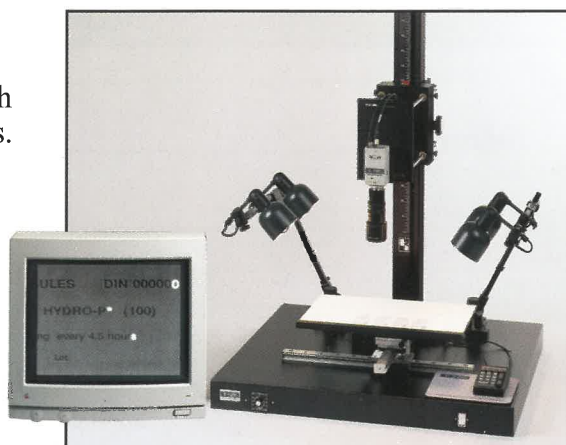

Global Vision is a world leader in Proof-reading & Quality Control Inspection Systems

TVS PROOF-READER

The TVS Proof-Reader is an electronic proof-reading system which is ideal for Quality Control inspection of Labels, Cartons & Inserts. The TVS instantly detects errors as small as missing periods and broken type. **NEW!** Auto-Distortion, Auto-Alignment & Hi-Resolution modules available.

NEW! ROBOTIC PROOF-READER
Motorized inspection of large press sheets

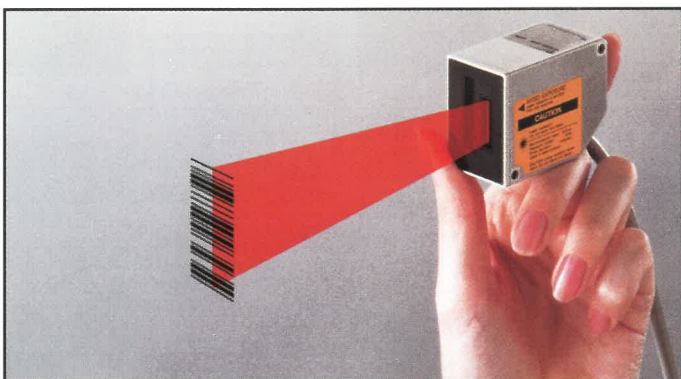

OCR DIGITAL TEXT COMPARATOR

Exclusively designed for Label Control, Regulatory Affairs, Graphic Design, and Legal departments, this computerized text inspection system reads and compares two documents instantly. Inspection is independent of layout, text size and font. Files may be in IBM or MACINTOSH format. Inspection can be performed in all foreign languages.

A 500,000 Word Medical dictionary is available for advanced spell-checking.

LASER BAR CODE SCANNER

The fastest and most accurate Bar Code Scanner for production environments. Provides high-speed on-line inspection of up to 500 bar codes/second.

INSERT COUNTER

The Insert Counter is a computerized video counting workstation for instant, 100% accurate counting of inserts, outserts and cartons in trays or bundles.
