## Scan-TVS™ Electronic Artwork Comparator

Scan-TVS™ is an innovative scanner-based proof-reading solution for complete inspection of labels, cartons, inserts and leaflets. It is available in a compact, A3 or A4 desktop configuration or in a free-standing, wide format roll-scanner that can accommodate the largest size press sheet.

Designed to operate with Global Vision's proven TVS™ PRO software engine, the Scan-TVS™ full image inspection system ensures that all errors and changes are easily identified.

The Scan-TVS™ is an ideal proof-reading system for high-security environments where unparalleled accuracy and high-speed inspection are essential.

- 1 Pinpoints errors in seconds
- 2 Easy review of Master, Sample and Difference
- 3 Automatically generates a list of all product defects
- 4 Operators **ACCEPT** or **REJECT** differences
