ERROR-PROOFING FOR PROFESSIONALS

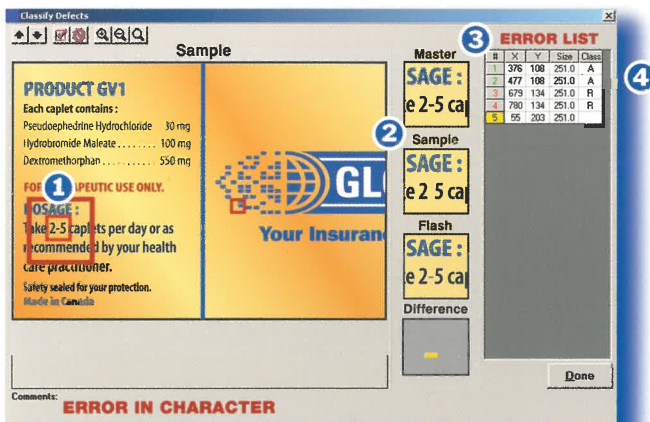

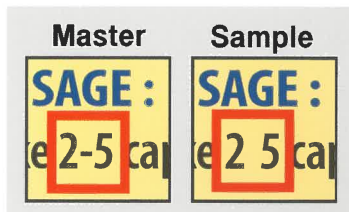

# TVS™ PROOF-READER Artwork Inspector

The TVS™ PROOF-READER is a camera-based artwork inspector for electronically inspecting labels, cartons, leaflets, color keys, PDFs, and films in only seconds instead of hours.

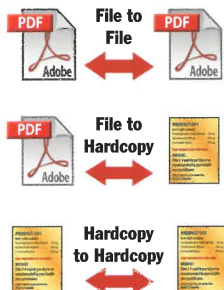

It's ideally suited for quality control and pre-press applications where production samples are compared against a master copy. TVS™ PROOF-READER can identify missing text and graphics, incorrect fonts, text size and bar codes, as well as broken type and color deviations.

The easy-to-use TVS™ PROOF-READER saves valuable time while avoiding costly product recalls and print re-runs.

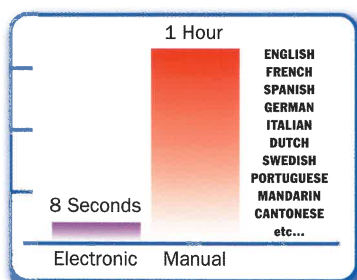

- 1 Pinpoints errors in seconds
- 2 Easy review of Master, Sample and Difference
- 3 Automatically generates a list of all product defects
- 4 Operators **ACCEPT** or **REJECT** differences
